DEMO DAY 2026 · THE DOCK, WYNWOOD

Ghost Gym Gear

A community-built catalog of Ghost Gym Miami's rare and vintage strength machines, archived in detail.

Pablo Silva · gggear.app

WHERE IT STARTED

It started with a weekly program and a guess.

My coach sends the weekly program. Some of the machines it prescribes aren't obvious on the floor, so I take a best guess, shoot a photo and send it over for confirmation. A text thread follows, back and forth, and the photos pile up on my phone.

Coach Brandon Rojo

Best guess

Back and forth

The photo pile-up

THE CATALOG

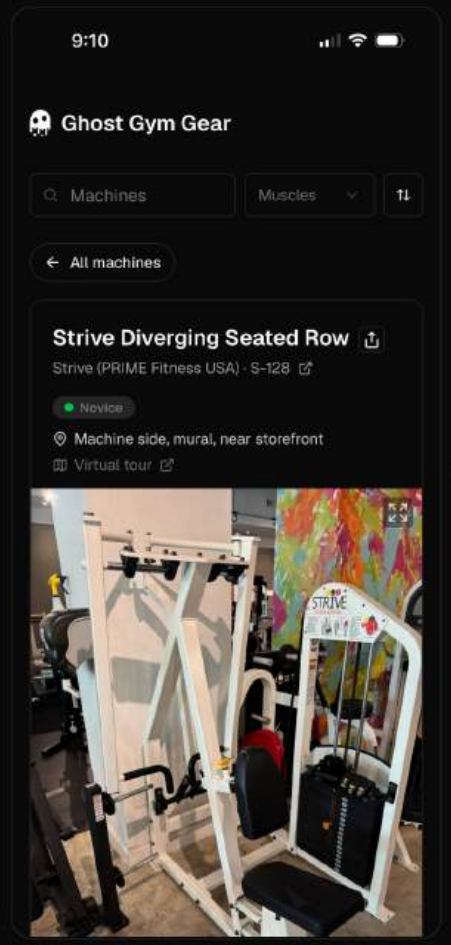

Every rare and vintage machine on the floor, archived in great detail.

Nautilus, MedX, Atlantis, Flex, Hammer Strength. You name it.

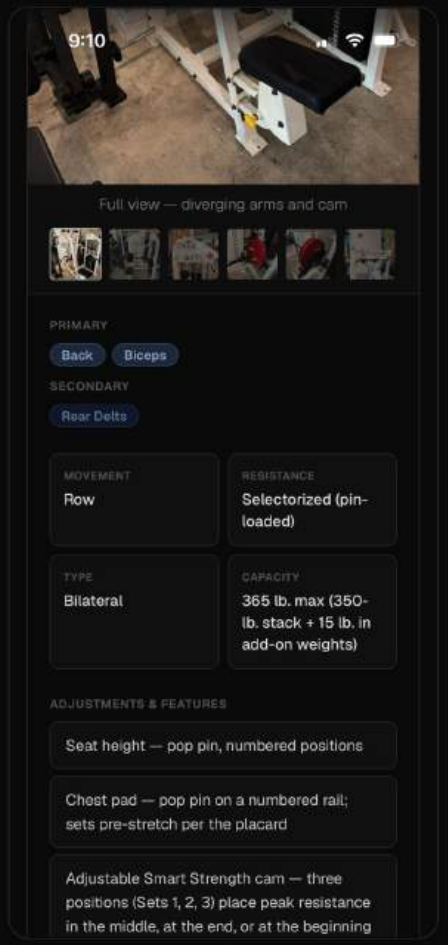

THE APP

Now every machine has an entry.

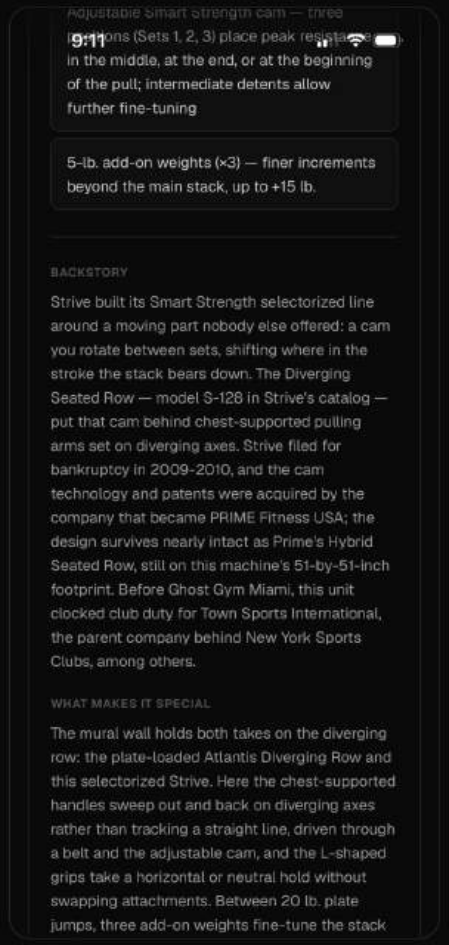

Search the catalog, sort it, filter by muscle or difficulty, then open a machine and get the photos, the specs and the story behind it. Built for the phone, since that is where most questions come from.

Name, location, difficulty

Photos and specs

Features and backstory

THE ENTRIES

What each machine carries

Photos

Front view, seat, pads and handles, plus the label on the frame.

Floor location

Where it sits on the floor, with a link to the virtual tour.

Muscles and difficulty

Primary and secondary muscle tags and a difficulty level.

Back · Rear Delts

Novice · Intermediate · Advanced

Specs

Movement, resistance, type and weight-stack capacity.

Adjustments and features

Seat height, pads, grips and cams, and how each one adjusts.

Backstory

Who built it, when, and what makes this unit special.

BY THE NUMBERS

Every machine on the floor, counted.

65+
machines cataloged

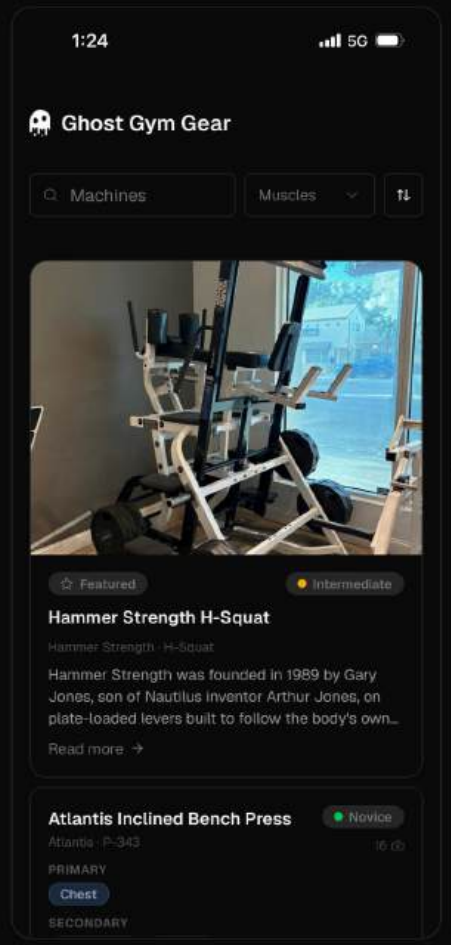

850+
unique photos, all shot on the floor

20+
brands, Atlantis and Flex leading

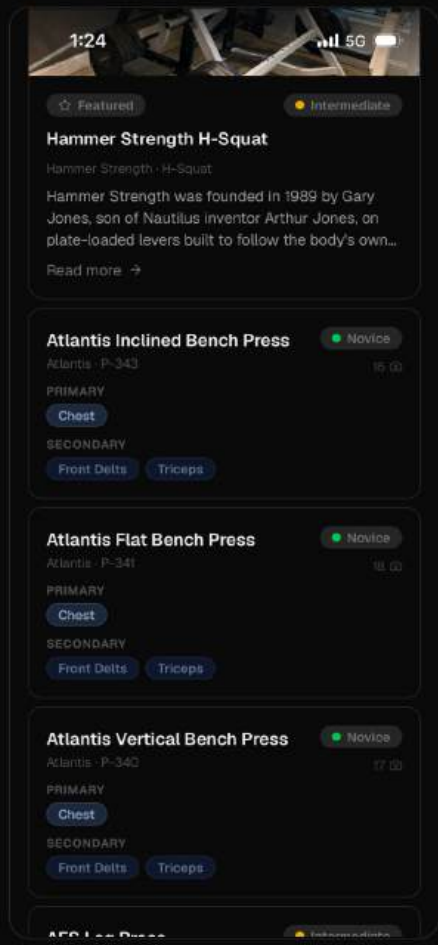

Lower body
glutes and quads rule the floor

● Novice ● Intermediate ● Advanced

Most machines sit at novice or intermediate. Five are advanced.

HOW IT'S BUILT

AI-forward stack and workflows

AI	**Claude Code** Coding agents	**Claude Managed Agents** Autonomous agents			
STACK	**Next.js** The app	**Tailwind** The styling	**shadcn/ui** The components	**Lucide** The icons	**Geist** The typeface
PIPELINE	**Apify** Data scraping	**GitHub** The repo	**Vercel** Hosting and deploys		

Slumpy is the mark: a ghost left out in the Miami sun, goofy cousin to Ghost Gym's flaming skull. Every brand asset, favicon to launch screen, is generated at build time from that one vector source.

GHOST
GYM

None of this exists without the floor.

Every machine in the catalog lives at Ghost Gym Miami.
If you're in town, drop in and see them in person.
